The Current State of Software Protection

Speaker: Steve Lundberg
Tuesday, October 14, 2014
2:10—3:00 p.m.
1810 Gilman Hall

Researchers at ISU develop software for many purposes.

- Are they protected from misuse or misappropriation?
- What kinds of protections are used to protect valuable software?
- Is copyright protection now the only option?

Software expert and patent attorney, Steve Lundberg, principal of the Minneapolis firm of Schwegman Lundberg and Woessner, will address these questions and others, such as collaborations in software development and open source licensing. Please join us on October 14, 2014 at 2:10 – 3:00 p.m., room 1810 Gilman and bring your questions for an interactive discussion.

Questions? Contact ISURF/OIPTT at 515-294-4740.
